**Subject:** Progress update Alotau 2017

Feb 10<sup>th</sup> 2017

Look at this white board! This has to be every Sunday school teacher's dream. Well maybe not yours but I think writing on the ocean is way cool! Alotau Centre supports many translators that work on the small islands off shore.

As Jodi and I finish our time at the Alotau Centre we are taking a moment to reflect. Every Monday, Wednesday and Friday morning we were able to lead a 30min devotion time. The PNG staff comes from different villages, and different church backgrounds. They love God and they love His Word. All these thoughts are their thoughts on 1,2,3 John. As a bonus the summarized the three books by listing the fruits of the Spirit as how John was telling us to live. Very deep. Just like the ocean it is written on.

Partnering with you in Bible Translation,

*Jodi and Jay*
