

May 6, 2018

Summer has started in Georgia. Even as I type this evening, our air-conditioning is running. I have our apt thermostat set at 80:) Here is a quick glance into what has been happening lately:

Jodi in flat-out study mode:) Classes are ongoing with her finishing Woman's Health. She is now starting her pediatric clinicals.

Kristolyn was able to come for a weekend visit with Myria (11 weeks). Thank you to our son-in-law for the overtime staying home with Silas (3yrs)

In addition to our ministry work I have been able to help / play with Judah our grandson:)

Please continue to pray for:

- Jodi while she continues in her Master's program
- Ukarumpa our Papua New Guinea center, as there is some staff shortages

Watch for our News Letter which will be highlighting my department's work.

Thank you for progressing with us.
Jay and Jodi
